## SECTION SF 30 BLOCK 14 CONTINUATION PAGE

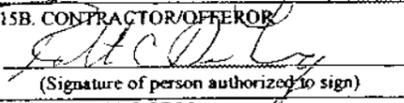

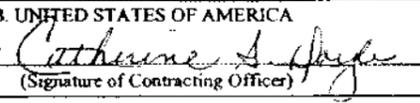

## SUMMARY OF CHANGES

- A. Pursuant to the option provision set forth in subject contract, the Government hereby exercises Option III for the period of 01 Oct 2001 through 30 Sep 2002. The estimated value of Option III is \$4,199,143.07.
- B. The contract period is hereby changed as follows:
- FROM: 01 Apr 1999 through 30 Sep 2001  
TO: 01 Apr 1999 through 30 Sep 2002
- C. This modification is subject to the Availability of Funds clause I-404, FAR 52.232-18, hereby cited in its entirety:

AVAILABILITY OF FUNDS

Funds are not presently available for this contract. The Government's obligation under this contract is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are made available to the contracting officer for this contract and until the contractor receives notice of such availability, to be confirmed in writing by the contracting officer.

- D. Department of Labor Wage Determination #1994-2419 (Rev 18), dated 31 May 2001, is attached and hereby incorporated into the contract, effective 01 Oct 2001.
- E. The dates in Clause I-170, FAR 52.216-18, Ordering, are changed as follows:
- FROM: 01 Apr 1999 through 30 Sep 2001  
TO: 01 Apr 1999 through 30 Sep 2002
- F. The date in Clause I-173, FAR 52-216-21, Requirements, is hereby changed as follows:
- FROM: 15 Oct 2001  
TO: 15 Oct 2002
- G. As a result of this modification, the total estimated value of the contract is changed as follows:
- FROM: \$12,405,298.53      BY: \$4,199,143.07      TO: \$16,604,441.60

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

The purpose of this modification is to incorporate a DD Form 254, Department of Defense Contract Security Classification Specification, as well as appropriate contract clauses.

DD Form 254, dated 09 Oct 2001, four pages, is hereby incorporated into the contract.

Changes in Section G

Summary for the Payment Office

The total funded amount of the contract remains unchanged.

Changes in Section I

The following clauses which are incorporated by reference have been added or modified:

52.204-2 Security Requirements AUG 1996

The following clauses which are incorporated by full text have been added or modified:

5352.204-9000 NOTIFICATION OF GOVERNMENT SECURITY ACTIVITY (MAY 1996)

Thirty days before the date contractor operations will begin on base, the contractor shall notify the security police activity shown in the distribution block of the DD Form 254, DOD Contract Security Classification Specification, as to:

- (a) The name, address, and telephone number of this contract company's representative and designated alternate in the U.S. or overseas area, as appropriate;
- (b) The contract number and military contracting command;
- (c) The highest classification category of defense information to which contractor employees will have access;
- (d) The Air Force installations in the U.S. (in overseas areas, identify only the APO number(s)) where the contract work will be performed;
- (e) The date contractor operations will begin on base in the U.S. or in the overseas area;
- (f) The estimated completion date of operations on base in the U.S. or in the overseas area; and
- (g) Any changes to information previously provided under this clause.

This requirement is in addition to visit request procedures contained in DOD 5220.22-M, National Industrial Security Program Operating Manual.

## 5352.204-9001 VISITOR GROUP SECURITY AGREEMENTS (MAY 1996)

Prior to beginning operations involving classified information on an installation identified on the DD Form 254 where the contractor is not required to have a facility security clearance, the contractor shall enter into a security agreement (or understanding) with the installation commander to ensure that the contractor's security procedures are properly integrated with those of the installation. As a minimum, the agreement shall identify the security actions which will be performed:

(a) By the installation for the contractor, such as providing storage and classified reproduction facilities, guard services, security forms, security inspections under DOD 5220.22-M, classified mail services, security badges, visitor control, and investigating security incidents; and

(b) Jointly by the contractor and the installation, such as packaging and addressing classified transmittals, security checks, internal security controls, and implementing emergency procedures to protect classified material.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Changes in Solicitation/Contract/Order Form

The purposes for this modification are five-fold, first to incorporate revised labor rates based on the Department of Labor Wage Determination 1994-2419 (Rev 18); second, to delete the position description for Senior Electronics Technician III, found in paragraph 1.2.7.4. of the Performance Work Statement (PWS) and replace it with the following position description for Engineering Technician III:

1.2.7.4. Engineering Technician III

Qualifications

Must have, as a minimum, two years formal technical education and three years specialized experience, or alternatively, a minimum of six years specialized experience with electronic and electromechanical equipment, control systems, data acquisition systems, and instrumentation.

Duties

Supports basic and exploratory research in the area of sensor materials and devices. Specific responsibilities include, but are not limited to:

- 1) Assists scientists and engineers in designing modifications and upgrades of existing electronic and electromechanical equipment, including electronic controllers, data acquisition interfaces, test equipment, and instrumentation;
- 2) Fabricates, tests, and assists in the installation of site specific equipment modifications and upgrades;
- 3) Recommends design modifications and changes based on price and availability of electronic and electromechanical equipment and components;
- 4) Diagnoses, repairs, tests, calibrates, and adjusts electronic and electromechanical equipment;
- 5) Operates installed electronic and electromechanical equipment to accomplish troubleshooting and diagnosis of problems; and
- 6) Researches part specifications, design schematics, and product literature to accomplish above duties.

Supervisory Controls

Works under the general direction of government scientists and engineers to accomplish project goals. Must be able to work independently for most tasks.

Physical Demands/Work Environment

Work is accomplished in a laboratory and/or electronics shop environment. This position requires the physical ability to lift moderately heavy equipment, climb short ladders, work while prone on the floor or under installed equipment, and work in confined spaces. No travel is anticipated for this position. Work will be performed in and around multiple AFRL facilities in Area B at Wright-Patterson AFB.

Third, the estimated number of hours to be allocated to the Engineering Technician III position is set as an increase over those originally allocated for the Senior Electronics Technician position.

Fourth, the estimated hours for Computer System Analyst II and Computer System Analyst III are revised to better reflect actual usage under this contract.

Fifth, the estimated value for materials (as well as the estimated value of material handling) is hereby increased.

All adjustments previously cited in this modification are reflected in the following revised schedule, Section B, for Option Periods III and IV (CLIN's 0007-0010), which is hereby incorporated, superseding all previous editions:

SUMMARY OF CHANGES

Changes in Solicitation/Contract/Order Form

Pursuant to the option provision set forth in subject contract, the Government hereby exercises Option IV for the period of 01 Oct 2002 through 30 Sep 2003. The estimated value of Option IV is \$4,265,550.40.

The contract period is hereby changed as follows:

FROM: 01 Apr 1999 through 30 Sep 2002  
TO: 01 Apr 1999 through 30 Sep 2003

This modification is subject to the Availability of Funds Clause, I-404, FAR 52.232-18, hereby cited in its entirety.

AVAILABILITY OF FUNDS

Funds are not presently available for this contract. The Government's obligation under this contract is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are made available to the contracting officer for this contract and until the contractor receives notice of such availability, to be confirmed in writing by the contracting officer.

Department of labor Wage Determination #1994-2419 (Rev 21), dated 05 Sep 2002, is attached and hereby incorporated into the contract, effective 01 Oct 2002.

The dates in Clause I-170, FAR 52.216-18, ordering, are changed as follows:

FROM: 01 Apr 1999 through 30 Sep 2002  
TO: 01 Apr 1999 through 30 Sep 2003

The date in Clause I-173, FAR 52.216-21, Requirements, is hereby changed as follows:

FROM: 15 Oct 2002  
TO: 15 Oct 2003

The total estimated value has increased from \$17,401,098.53 by \$4,265,550.40 to \$21,666,648.93

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Changes in Solicitation/Contract/Order Form

The purpose of this modification is three-fold; first to correct the designation of the Opto-Electro Mechanical Technician position, incorrectly cited as "IV". In all instances this position should be identified as "VI". This is a correction of a typographical error and does not involve any change to hourly rate.

Secondly, the estimated hours for the position identified as Engineering Technician III is hereby increased, as detailed in revised schedule, below.

Third, the following position description is incorporated for Engineering Technician IV,

1.2.7.13. Engineering Technician IV: This position shall support basic research, exploratory and advanced development programs in the areas of RF and microwave systems and components. Specific responsibilities include, but are not limited to, the following: 1) assists scientists and engineers in determining RF and microwave system requirements and formulating optimum system designs, 2) recommends changes in system implementation based on experience, 3) designs and fabricates experimental RF and microwave systems and components; analog and digital interface, control, and test circuitry; programs in higher order languages; tests or participates in the testing of components and subsystems; documents work efforts, 4) develops and fabricates instrumentation and test circuitry; integrates RF and microwave components in subsystems and systems, 5) specifies parts, components, and equipment to be purchased, 6) accomplishes trouble-shooting and testing of test articles, instrumentation, control, and data acquisition systems and components, 7) develops modifications and procedural changes to alleviate malfunctions, 8) accomplishes data gathering and analysis on defined tasks, 9) accomplishes PME management and calibration for laboratory test equipment and tools, 10) oversees the tasks of other technicians, conducts training, specifies parts, components, and equipment to be purchased, and 11) participates in the day-to-day operation and maintenance of facilities and equipment associated with the AFRL/SNDM Microwave Laboratory.

Knowledge/Experience Requirements: Must be experienced in applying engineering techniques to the design, fabrication, and testing of RF and microwave systems and electronic test and support equipment. Must have a working knowledge of RF and microwave principles, interfaces, and equipment standard engineering and RF and microwave test equipment; analog and digital test equipment; serial and parallel interfaces; RF modems; UHF/SHF/EHF and microwave antennas, transmitters, and receivers; IEEE and Mil Standard interfaces and busses; and PC type computers, applications software packages, software that commands and controls communications and test equipment interfaces, and higher order programming languages. Must be familiar with government procurement policies and QA (Quality Assurance) principles. Complexity of assignments typically requires considerable creativity and judgment to devise approaches to accomplish work, resolve design and operational problems, and make decisions in situations where standard engineering methods, procedures, and techniques may not be applicable.

Supervisory Controls: Works under general direction of senior scientist or engineer to accomplish project goals. Must be able to work independently or as a member of research project and facility management teams. May function as team leader providing expertise across a variety of technical disciplines or may function as an expert in specific area of responsibility.

Physical Demands/Work Environment: Work is accomplished in office or laboratory environment. This position requires the physical ability to lift heavy equipment and climb ladders. A secret clearance, and limited travel may be required to support the facility and ongoing research projects.

All adjustments previously cited in this modification are reflected in the following revised schedule, Section B, for Option Periods III and IV (CLIN's 0007-0010), which is hereby incorporated, superseding all previous editions.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Changes in Solicitation/Contract/Order Form

The purpose of this modification is to replace one position description with another, add a new position description within the Performance Work Statement, add labor hours to the schedule and to increase the ceiling on both labor and Other Direct Costs. As a result of these changes, the total cost has increased from \$21,818,301.13 by \$726,587.40 to \$22,544,888.53

Paragraph 1.2.7.6., originally identified as Computer System Analyst III , is hereby replaced by the following:

**1.2.7.6: Senior Principal Engineer**

Functional Responsibilities: Applies extensive and highly specialized knowledge of computer engineering, computer networking, software engineering, and information security principles and practices in order to complete assigned technical goals. Conceives, integrates, applies, and troubleshoots a unique and complex system comprised of a continuously expanding network of local, building-wide, base-wide, and nationwide a) air platform and battle simulators, b) command, control, and communication applications, c) intelligence, surveillance, and reconnaissance applications, and d) real time embedded information systems. Determines the system's global architecture, its components, and the processes required for its use. Is responsible for leading the application, expansion, and enhancement of the system. Assumes responsibility for planning of the work to be accomplished; for documenting and demonstrating the work accomplished; and for technical supervision of engineers, programmer/analysts, and technicians. Conducts or contributes to feasibility studies for proposed equipment and systems. Performs work that includes complex features such as integration of geographically distributed components and subsystems that are owned, operated, and supported by different organizations; resolution of conflicting requirements and incompatibilities; working with unfamiliar and often research-quality products; and difficult multi-organization coordination. Makes technical visits as required to other government organizations, contractors, product vendors, etc.

Minimum Education: BS Degree in Electrical, Electronic, or Computer Engineering. MS or Ph.D. degree preferred.

Minimum General Experience: fifteen or more years of directly applicable technical experience including successful technical team leadership responsibilities. Must be capable of holding a SECRET clearance and passing a TOP SECRET level background investigation.

Additionally, the following position description is added to the Statement of Work:

**1.2.7.14: Systems Analyst I**

Functional Responsibilities: Defines, designs, and implements processes and procedures supporting research and development and integration of complex information systems. Works with components and subsystems of a unique network of a) air platform and battle simulators, b) command, control, and communication applications, c) intelligence, surveillance, and reconnaissance applications, and d) real-time embedded information systems. Will work as part of a team during most phases of the system development life cycle. Creates documentation supporting the analysis and design activities. Applies and demonstrates results in the context of the larger system. Works with technical specialists from other government agencies, contractors, and product vendors.

Minimum Education: BS degree in Computer Science or Electrical, Electronic or Computer Engineering.

Minimum/General Experience: Three years IT systems experience using structured analytical and programming methods at the system level. Experienced at defining requirements, conceptualizing system design, evaluating alternatives, and presenting recommendations. Experienced in object-oriented programming and the use of automated tools for requirements analysis and system design activities. Must be eligible for a SECRET level security clearance.

Within Attachment 1, Bid Schedule, to reflect the above changes, the values for CLIN's 0009 and 0010 are replaced as follows:

DD FORM 254, DEC 1999

PREVIOUS EDITION IS OBSOLETE.

**12. PUBLIC RELEASE.** Any information (classified or unclassified) pertaining to this contract shall not be released for public dissemination except as provided by the Industrial Security Manual or unless it has been approved for public release by appropriate U.S. Government authority. Proposed public releases shall be submitted for approval prior to release  Direct  Through (Specify)

ASC/PA  
1865 4th Street  
Wright-Patterson AFB, OH 45433-7129

to the Directorate for Freedom of Information and Security Review, Office of the Assistant Secretary of Defense (Public Affairs)\* for review.  
\*In the case of non-DoD User Agencies, requests for disclosure shall be submitted to that agency.

**13. SECURITY GUIDANCE.** The security classification guidance needed for this classified effort is identified below. If any difficulty is encountered in applying this guidance or if any other contributing factor indicates a need for changes in this guidance, the contractor is authorized and encouraged to provide recommended changes; to challenge the guidance or the classification assigned to any information or material furnished or generated under this contract; and to submit any questions for interpretation of this guidance to the official identified below. Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended. (Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any documents/guides/extracts referenced herein. Add additional pages as needed to provide complete guidance.)

a. The National Industrial Security Program Operating Manual (NISPOM), Jan 95, applies to this contract

b. Ref Blk 10a: COMSEC Safeguarding requirements apply. For on base performance, COMSEC is incumbent on the government.

c. Ref Blk 10c(2): Contractor will require access to intelligence information and must comply with AFI 14-303/AFMC Supplement 1. The Program Manager has determined that disclosure does not create an unfair competitive advantage for the contractor or a conflict of interest with the contractor's obligation to protect the information. The contractor will submit the AFMC Form 210 to AFRL/IN (acting in a limited and temporary SIO role) for approval prior to granting access.

d. Ref Blk 10j: For Official Use Only (FOUO) applies. See addendum.

e. Ref Blk 11a Using activity will provide security classification guidance for performance on this contract. On base performance in support of AFRL/SN and AFRL/IF will occur in Bldg 620, Area B, WPAFB OH. If any classified information is generated in the performance of this contract at the identified location, the contractor shall apply derivative classification and markings consistent with the source material.

f. Ref Blk 11i: The Notification of Government Security and Visitor Group Security Agreement Clause applies. See Contract Clause in Section 1 for details.

g. Contract Monitor: Guy D. Couturier, AFRL/SNDI, (937) 255-4557 X3440

h. Ref Blk 17e (ACO): DCMA/Dayton, (937) 656-3048

i. Ref Blk 17f (Distribution): 88 SFS/SFAS, AFRL/IN, AFRL/SN (Security Manager)  
Coordination received from Patrick Price, Det 1, AFRL/WRS, (937) 255-3267 on 2 May 03 (skb).

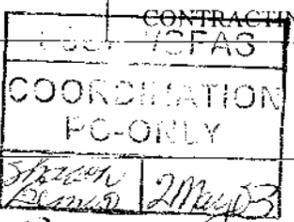

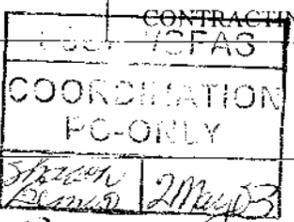

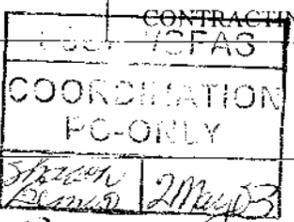

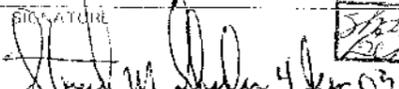

**14. ADDITIONAL SECURITY REQUIREMENTS.** Requirements, in addition to ISM requirements, are established for this contract.  Yes  No  
(If Yes, identify the pertinent contractual clauses in the contract document itself, or provide an appropriate statement which identifies the additional requirements. Provide a copy of the requirements to the cognizant security office. Use Item 13 if additional space is needed.)

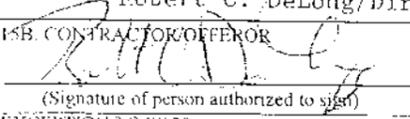

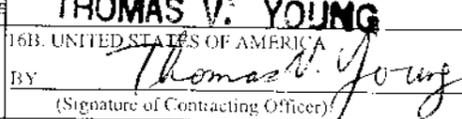

Ref Blk 11j: OPSEC Requirements apply. CIs will be provided to contractor under separate cover and updated as required.

**15. INSPECTIONS.** Elements of this contract are outside the inspection responsibility of the cognizant security office.  Yes  No  
(If Yes, explain and identify specific areas or elements carved out and the activity responsible for inspections. Use Item 13 if additional space is needed.)

Ref Blk 11i: DSS is relieved of all security oversight for performance on the installation. For performance on WPAFB, security oversight will be under the cognizance of 88 SFS/SFAS.

**16. CERTIFICATION AND SIGNATURE.** Security requirements stated herein are complete and adequate for safeguarding the classified information to be released or generated under this classified effort. All questions shall be referred to the official named below.

a. TYPED NAME OF CERTIFYING OFFICIAL	b. TITLE	c. TELEPHONE (include Area Code)		
STUART M. SHULER	CONTRACTING OFFICER	(937) 257-6145 x4387

TO: 15 Apr 04

D. The dates in the Ordering clause (52.216-18) (I-170), are changed:

FROM: 1 Apr 99 through 30 Sep 03  
TO: 1 Apr 99 through 31 Mar 04

E. Department of Labor wage determination #94-2419, Rev 22, dated 04 Jun 2003 is hereby incorporated into the contract effective 01 Oct 03.

F. The full text of clause 52.232-18 (I-404) is provided below:

**52.232-18 -- Availability of Funds. (Apr 1984)**

Funds are not presently available for this contract. The Government's obligation under this contract is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are made available to the Contracting Officer for this contract and until the Contractor receives notice of such availability, to be confirmed in writing by the Contracting Officer.

(End of Clause)

G. As a result of this modification, the Total Ceiling price is hereby increased from estimated \$22,794,888.53 to estimated \$25,794,905.22 an increase of \$3,000,016.69. The total funded amount of the contract remains unchanged.
